

QUEST Environmental is your source for both commercial and residential consumer structural hygiene.

Overview of QUEST Company and Service

QUEST Environmental is a Colorado-based environmental consulting firm that provides top-quality, cost-effective environmental assessment, project design, and risk management services to detect, manage, and minimize the negative impact of environmental concerns. The foundation underlying QUEST's wide array of capabilities is our commitment to ensuring that living, working, and building environments are safe and healthy for their occupants.

What Is Industrial Hygiene?

Industrial hygiene is the science of protecting and enhancing the health and safety of people at work and in their communities. QUEST's industrial hygiene assessment and management services cover a wide range of chemical, physical, biological, and building-related concerns.

Healthy and safe environments for all.

QUEST Environmental is your source for both commercial and residential consumer structural hygiene.

LITIGATION SUPPORT

QUEST professionals have qualified and served as experts in cases involving indoor air quality, industrial hygiene, microflora/mold, clandestine meth labs, environmental risk assessment, asbestos, construction defect, noise, and product contamination.

We have extensive experience in assessing sites and case documents as well as providing top-quality expert witness reports and testimony. We take pride in maintaining our long-standing impartiality and integrity in support of both plaintiffs' and defense cases.

QUEST gladly provides the CRCP Rule 26 qualifications of Industrial Hygienist/Senior Scientist Robert A. Woellner upon request.
